

MACH-LITE

TRAINING BASKET

Component List:	QTY.
Pole / chain assembly	1
Pole / basket assembly	1
Locking Pin	1
Folding portable base	1
Carrying bag	1
Flag and flag pole	1

ASSEMBLY INSTRUCTIONS:

- 1) Insert the top pole /chain assembly into the lower pole / basket assembly. Lock into place with the lower pole's spring-loaded button.
- 2) Open the folding base on level ground and slide the attached poles into the base. Lock into place with the pole's other spring-loaded button. Tighten the thumb screw in the base to limit wobble.
- 3) Remove the locking pin and open the basket. Next open the top pole / chain assembly. Replace the locking pin to lock in the open position. The fabric will be tight the first few times you open the Mach Lite and will loosen with use.

If the chains are tangled, separate the poles, lift and open the chain assembly from the basket assembly. Reposition the ring and chain so that all the chains hang equally. Reconnect the two poles.

- 4) Carrying Bag: Close the top and lower assemblies. Lock the basket in the closed position with the locking pin. Slide the carrying bag over the closed Mach Lite. Turn the bagged Mach Lite over, remove the base and place in the side pocket.

THE FOUNDING COMPANY OF DISC GOLF

DiscGolf.com is your on-line resource for all things disc golf. Visit DiscGolf.com today to find out more about the sport of disc golf and to view a full line of high performance disc golf equipment and accessories.
